

P-1000 FH

Hydraulic Mining Air Conditioner

POLAR P-1000 FH FULLY HYDRAULIC MINING AIR CONDITIONER

The Polar P-1000 FH is designed for the rigorous requirements of the mining and Military industry. It is suitable for heavy equipment such as shovels, dozers, haul trucks, loaders, excavators, drills and underground equipment applications. The P-1000 FH requires little maintenance because of its corrosion and vibration-resistant construction and can be installed virtually anywhere!

Built to last, the P-1000 FH helps you get better performance from your operators by creating a comfortable environment that is dust free and temperature controlled. Because of its modular one-piece construction, the unit is exceptionally easy to install and swap out between machines, with minimal downtime.

FEATURES & BENEFITS

- 100 % Hydraulic Air Conditioning
- 20,000 to 50,000 BTU's/hr
- No electrical power required
- Works well in ambient temperatures exceeding 55°C / 130°F
- Designed for hazardous environments
- Manufactured with MSHA rated components and tailored to your working environment
- 2 year limited warranty

OPTIONS

- 5" Heavy Duty Ducting Kits
- Lid-mounted Safety Tread Plate
- Remote-mount Filter / Cab Pressurizer
- In-cab Controls
- Universal Air Plenum Assembly
- Vertical Mounting
- Glycol or Hydraulic Heat available
